

# Main Street and State Street Intersection Resurfacing in American Fork

## OVERVIEW

UDOT is resurfacing State Street in American Fork between the Main Street intersection and Roosevelt Avenue. Crews will remove the top three inches of asphalt and replace it with new pavement. Work is scheduled during nighttime hours from Friday, July 29, through Saturday, August 6, 2016. This project will prolong the life of the road and provide a smoother ride for drivers.

## WHAT TO EXPECT

- Construction will occur overnight throughout the project:
  - Friday and Saturday 10 p.m. to 6 a.m.
  - Sunday through Thursday 9 p.m. to 6 a.m.
- Crews will start on the north leg of the Main Street and State Street intersection. This work will require intermittent lane closures across all lanes for one to two nights.
- Next, crews will work on the north side of State Street and pave east to west, then move to the south side of State Street and pave west to east.
- The road will be reduced to one lane in the direction of the work.
- Delays are expected and use of alternate routes is recommended.
- Nearby residents and businesses may experience occasional noise, dust or vibration as crews complete this work.

Please note that construction schedules are weather-dependent and subject to change.
