

Hero Award

Larry and Vada Hunter

The Paradise Fire in California which started on November 8, 2018, has been described as the deadliest and most destructive wildfire in California history, taking 85 lives, destroying over 18,000 buildings and causing over 16 billion dollars in damage. The fire left the residents with nowhere to turn and many residents have been living in tents.

American Fork City residents, Larry and Vada Hunter heard of the people struggling as a result of the fire and decided to take action to help those in need. They have worked tirelessly to gather the necessary supplies to help those left homeless by the fire. They have selflessly donated their own 5th wheel trailer and helped gather the supplies to fill at least five other trailers that will be donated and delivered to the residents. In total, fifteen RV trailers will be taken to California thanks to the efforts of the Hunters.

The Hunters and those involved in this effort represent the spir-

it of service and sacrifice that are representative of what makes American Fork a great place to live. They have given of their financial resources and time to lighten the burden of others.

For this reason we want to honor Larry and Vada and their example by giving them this Hero Award and declaring March 26, 2019 “Larry & Vada Hunter Day” in American Fork City.
